TOWN OF WINDSOR California

Downtown Windsor Parking Guide

In 2023, the Town of Windsor began implementing time-limited parking regulations in designated areas of the Downtown core. Guided by the Downtown Parking Management Study and community feedback, these changes are designed to improve parking availability and better support local businesses.

The parking program includes:

3-hour and 15-minute time-limited free parking in key areas to promote turnover and improve access for customers.

All-day free parking in other downtown areas to accommodate employees, longer visits, and future SMART Train riders.

These updates help prepare Windsor for the increased downtown activity and shifting demand associated with the arrival of SMART Train service. This guide will help you find the most convenient parking options for your visit—whether you're shopping, dining, commuting, or attending an event.

REPORT AN ISSUE
